Independent schools in Victoria get more than 66.6% of their income from parents and other private sources*

Independent schools get 26.5% from the Australian Government.

They get 6.9% from the Victorian Government.

Independent school students receive less than half the federal and state government funding available to government school students.

That’s a shortfall of over $650 million a year.

Is government education funding fair?

No – government education funding is not fair

Tell your state and federal Members of Parliament that Independent school parents are saving taxpayer dollars by contributing to their children’s education.
